

EXCLUSIVE MEDIA RELEASE

To: George Knapp, Coast to Coast AM / KLAS-TV

"Mr. Knapp,

I'm offering you exclusive first media coverage of Amon Field Theory - a mathematical framework that unifies quantum mechanics, consciousness, and morphogenetic fields. This isn't just another physics paper, it's mathematical proof that reality is fundamentally alive and conscious.

The theory explains everything from quantum mechanics to telepathy through five fundamental operators acting on an information substrate. Complete with experimental predictions and testable hypotheses.

You've covered the fringe that becomes mainstream. This is that moment.

Exclusive yours if you want it. Complete embargo until you break the story.

Christopher R. Amon
